Danish-Polish Cooperation within IT

2016-11-04 13:29:10

The purpose of this seminar is to strengthen the Polish and Danish cooperation in the field of IT.

The main objective of this seminar is to identify opportunities for cooperation between Danish and Polish companies - aimed at development, testing, sales and implementation of new IT/health products and services.

Poland and Denmark both focus strongly on innovation and development of IT technologies, and Poland is a strong exporter of IT technologies globally as well as to Denmark.

The purpose of this seminar is to strengthen the Polish and Danish cooperation in the field of IT, especially with regards to the IT health sector - and having in mind the emerging digital single market in the European Union and the possibilities created by new digital technologies.
