

DTP services

Team

Our current full-time team consists of six DTP specialists at your disposal. Including our external resources, we manage a group of 16 people, fully qualified in DTP, preparation of texts for translation, typographic composition or OCR. **We respond to e-mails within max. 15 minutes (during working days from 9.00 to 18.00 CET), and we work 24/7.**

Acceptable file formats

Photoshop, Illustrator, PDF, InDesign, AfterEffects, Framemaker, MS Office, scans (tif, pdf, jpg, png, gif...), QuarkXPress, AutoCAD, HTML, XHTML, PHP and others.

Supported platforms

We work in Windows systems (XP, 7), in 32-bit as well as 64-bit versions, OS X Mountain Lion (version 10.8) and Linux (Ubuntu/Kubuntu).

Myth:

Every translation agency, which offers DTP services, performs them in-house, checks composition prior to delivery to the Client and is familiar at least with the typesetting standards.

Fact:

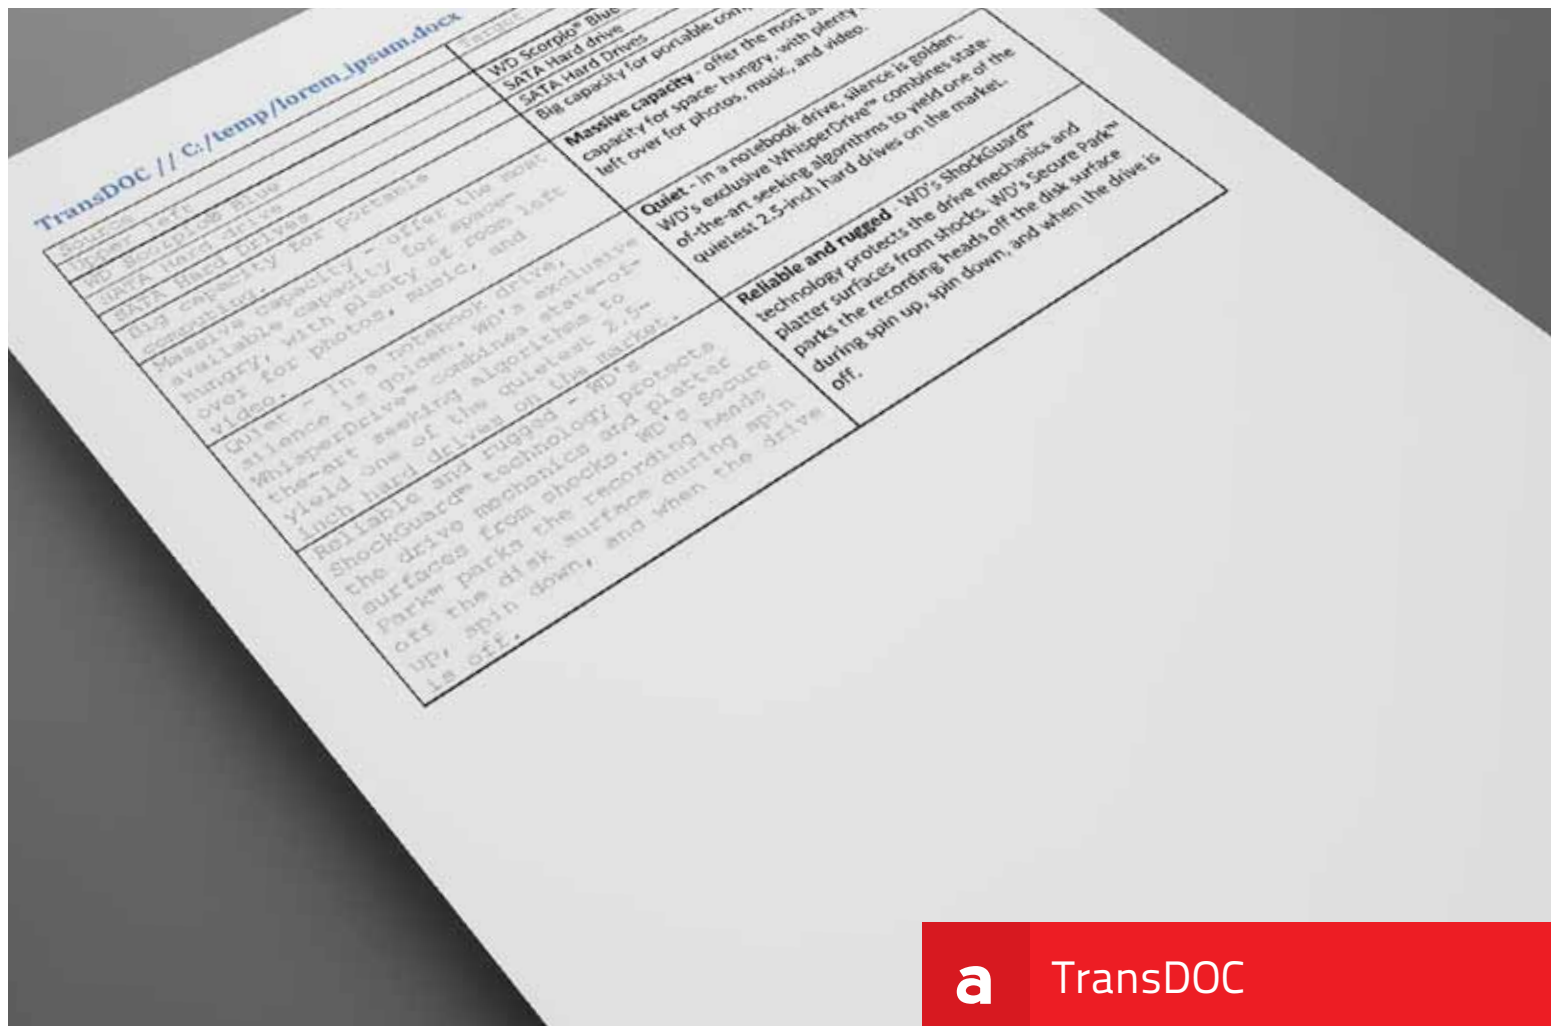

In times of outsourcing many translation agencies outsource DTP works to external suppliers, which is why

Translax provides services to most of the Polish LSPs.

1

Low budget services

Preparation of texts for character and word count,
as well as for translation in a raw format.

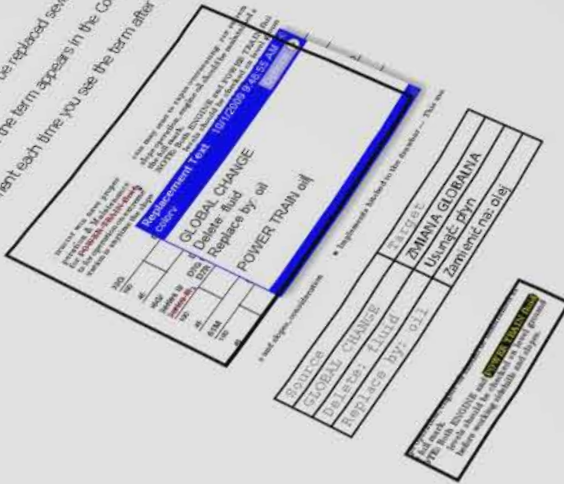

From 2 EUR for a page
OCR included in the price

Preparation of a two-column table in a DOC/DOCX/RTF file including texts from the source files provided by the Client. TransDOC can be prepared from any source files provided by the Client.

It is also possible to prepare files for CAT by means of copying a text from the left to the right column and blocking one of them before translation using relevant character and paragraph styles.

9. If a term needs to be repeated several times along the file, add the following comment the first time the term appears in the Comment Box: Global change. No need to enter a comment each time you see the term after that, just highlight it.

b TransDOC supplement

From 1.5 EUR for a table
OCR/transcription included in the price

The service consists of inserting small two-column tables into graphics are not localised. As a result, a translated file is obtained, which contains the original graphics and – directly beneath it – a table with translation of the texts from the graphics.

As a result, a translated file is obtained, which contains the original graphics and – directly beneath it – a table with translation of the texts from the graphics.

As a result, a translated file is obtained, which contains the original graphics and – directly beneath it – a table with translation of the texts from the graphics.

Customer Support

Caterpillar dealers have what it takes to keep trucks productive.
Commitment Makes the Difference.
Cat dealers offer a wide range of solutions, services and products that help you lower costs, enhance productivity and manage your operation more efficiently. Support goes far beyond parts and service. From the time you select a piece of Cat equipment until the day you rebuild, trade or sell it, the support you get from your Cat dealer makes the difference that counts.

Dealer Capability. Cat dealers provide the level of support you need, on a global scale. Dealer expert technicians have the knowledge, experience, training and tooling necessary to handle your repair and maintenance needs, when and where you need them.

Product Support. Cat dealers believe superior products deserve superior support. When Cat products reach the field, they are supported by a worldwide network of parts distribution facilities, dealer service centers, and technical training facilities to keep your equipment up and running. Cat customers rely on prompt, dependable parts availability and expertise through our global dealer network, ready to meet your needs 24/7.

Service Support. Every piece of Cat equipment is designed and built to provide maximum productivity and operating economy throughout its working life. Cat dealers offer a wide range of service plans that will maximize uptime and return on your investment, including:

Word count

From 1 EUR for a page

OCR included in the price

Preparation of files for word and character count in a project. When preparing a translation offer, one often encounters file formats, which cannot be opened. In such situations, we can offer help in prepar-

ing text extracts in a "user-friendly" format, which allows for performing an analysis for repetitions and fuzzy matches, and putting together a translation offer for the Client.

2

Editing

Editing documents, changes in files, preparation for translation

Pistons. The Caterpillar two-piston piston design combines the service, secondary, parking brake and retarding functions in the same system. The primary piston hydraulically actuates both service and retarding functions. The secondary piston is spring-applied and held in the disengaged position by hydraulic pressure. If hydraulic system pressure drops below a specified level, the spring-applied secondary piston automatically applies the brakes.

Automatic Retarder Control (ARC)
 Standard ARC electronically controls braking on grade to maintain engine at approximately 2,200 rpm (adjustable from 1,950 to 2,200 rpm in increments of 10). ARC is deactivated when the operator applies the brakes or throttle.

Ease of Operation. ARC increases operating ease, resulting in greater operator confidence with less fatigue.
Engine Overspeed Protection. Automatically activates ARC when engine speed exceeds factory preset levels, regardless of operator input, to avoid

From 3 EUR for a page
 Clients are charged only for modified pages

Full edit is a guarantee that a file for at cleaning/deleting or covering the translation will be fully editable. The source texts, which are to be translated and placed in text boxes over them – with or without texts for provided by the Client, which are not translation. fully editable, which aims primarily

From 2 EUR for a table
no bigger than A4 format, readable

The service involves working on the composition and the settings for DOC/DOCX/RTF source files provided by the Client, which are not fully editable, with the objective of preparing of a MS Word file so that all tables are editable and numeric values localised according to the given in CAT.

Most commonly, it is ordered in the case of financial documents. There is the possibility to block numbers before word count and translation in CAT.

From 3 EUR for a page

A4, editable PDF, without OCR
(we can use OCR from the
service "c" word count)

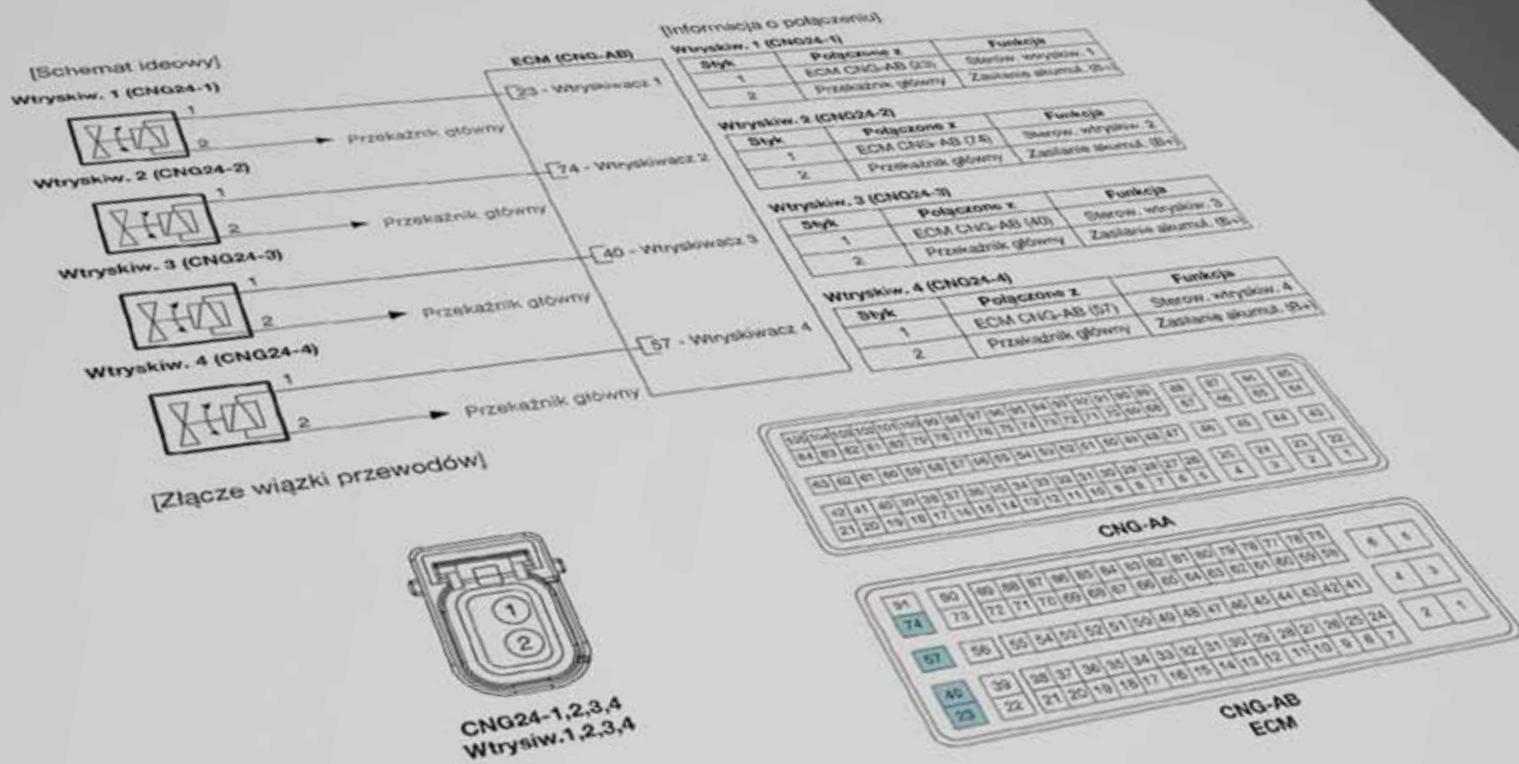

Sworn-trans involves preparation of seals and signatures for description files for sworn translation – preserving the exact page layout, accuracy of numbers, units and proper names, as well as preparation of

seals and signatures for description, reservation of space for binding, a footer and a seal of a sworn translator.

3

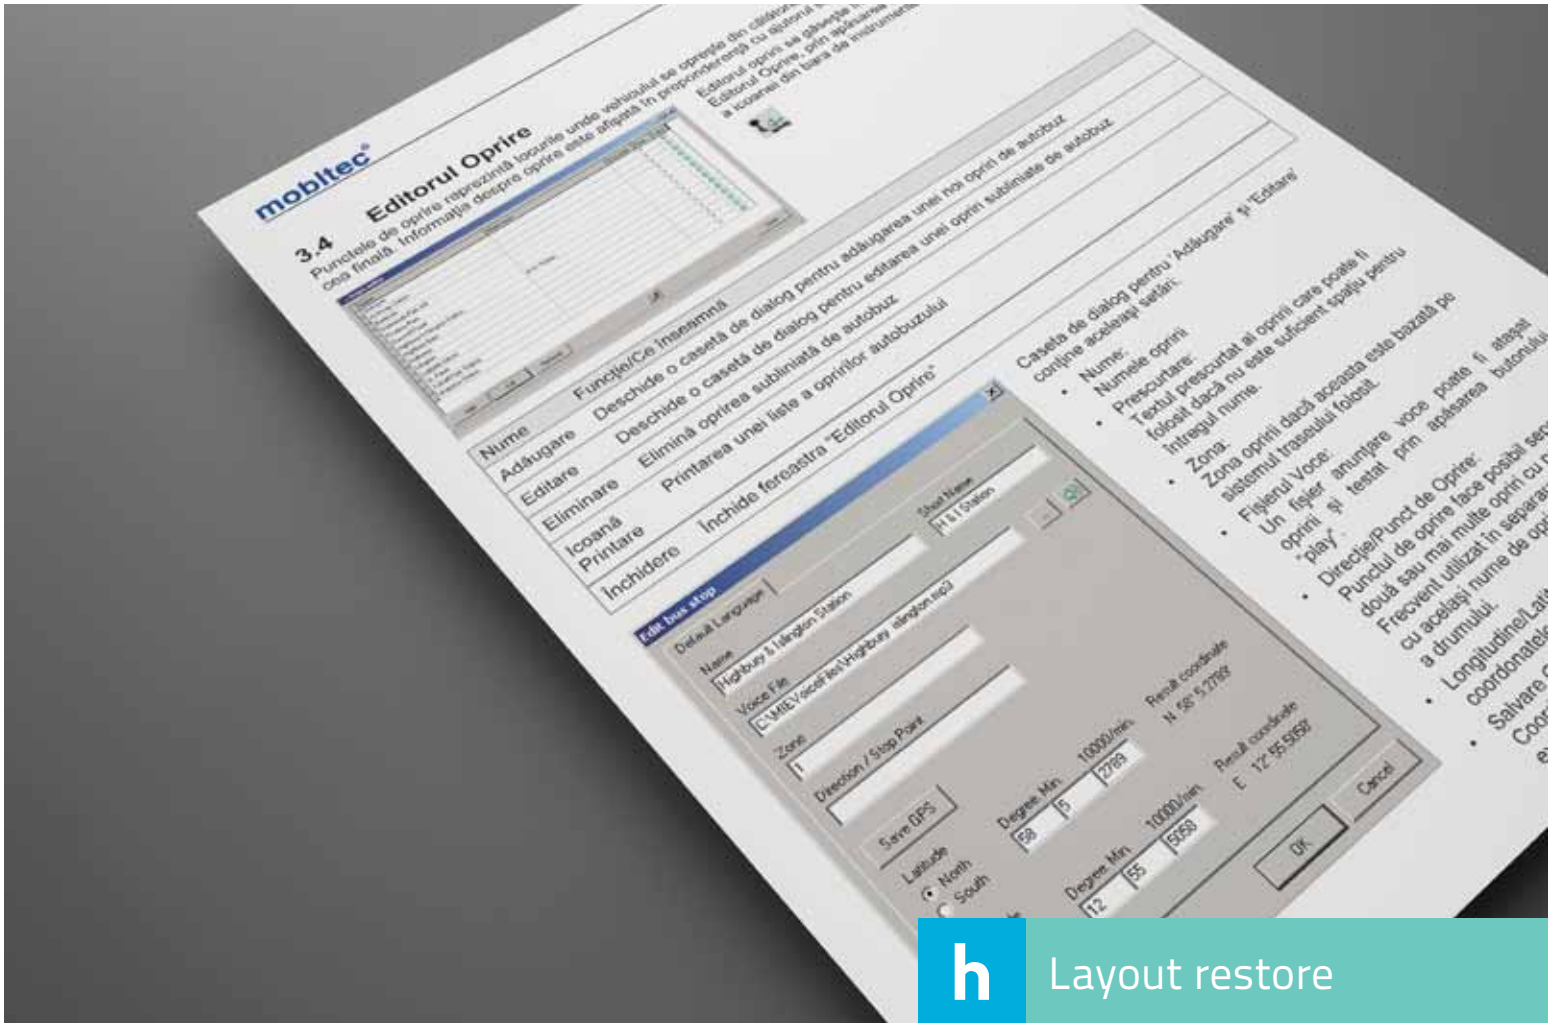

Comprehensive services

Comprehensive services from A to Z

From 0.39 EUR for a graphic image not flattened, editable to A5 format

Preparation of graphics for localisation e.g. in Adobe Photoshop. At this as well as their actual localisation. point, we offer optional preparation of TransDoc for translation and, Extracting graphics from the Client's files, cataloguing and naming files finally, transfer of translation onto graphics and delivery of bitmap and deleting source texts from graphics and replacing them with text frames chosen by The Client.

h Layout restore

From 4 EUR for a page
 editable, without OCR, up to A4 format

We preserve intention and concept in the case of minor errors in the source. Ultimately, we obtain a Word file, but the layout of the source document can be recreated in any DTP programme.

From 5 EUR for a page
editable, without OCR, up to A4 format

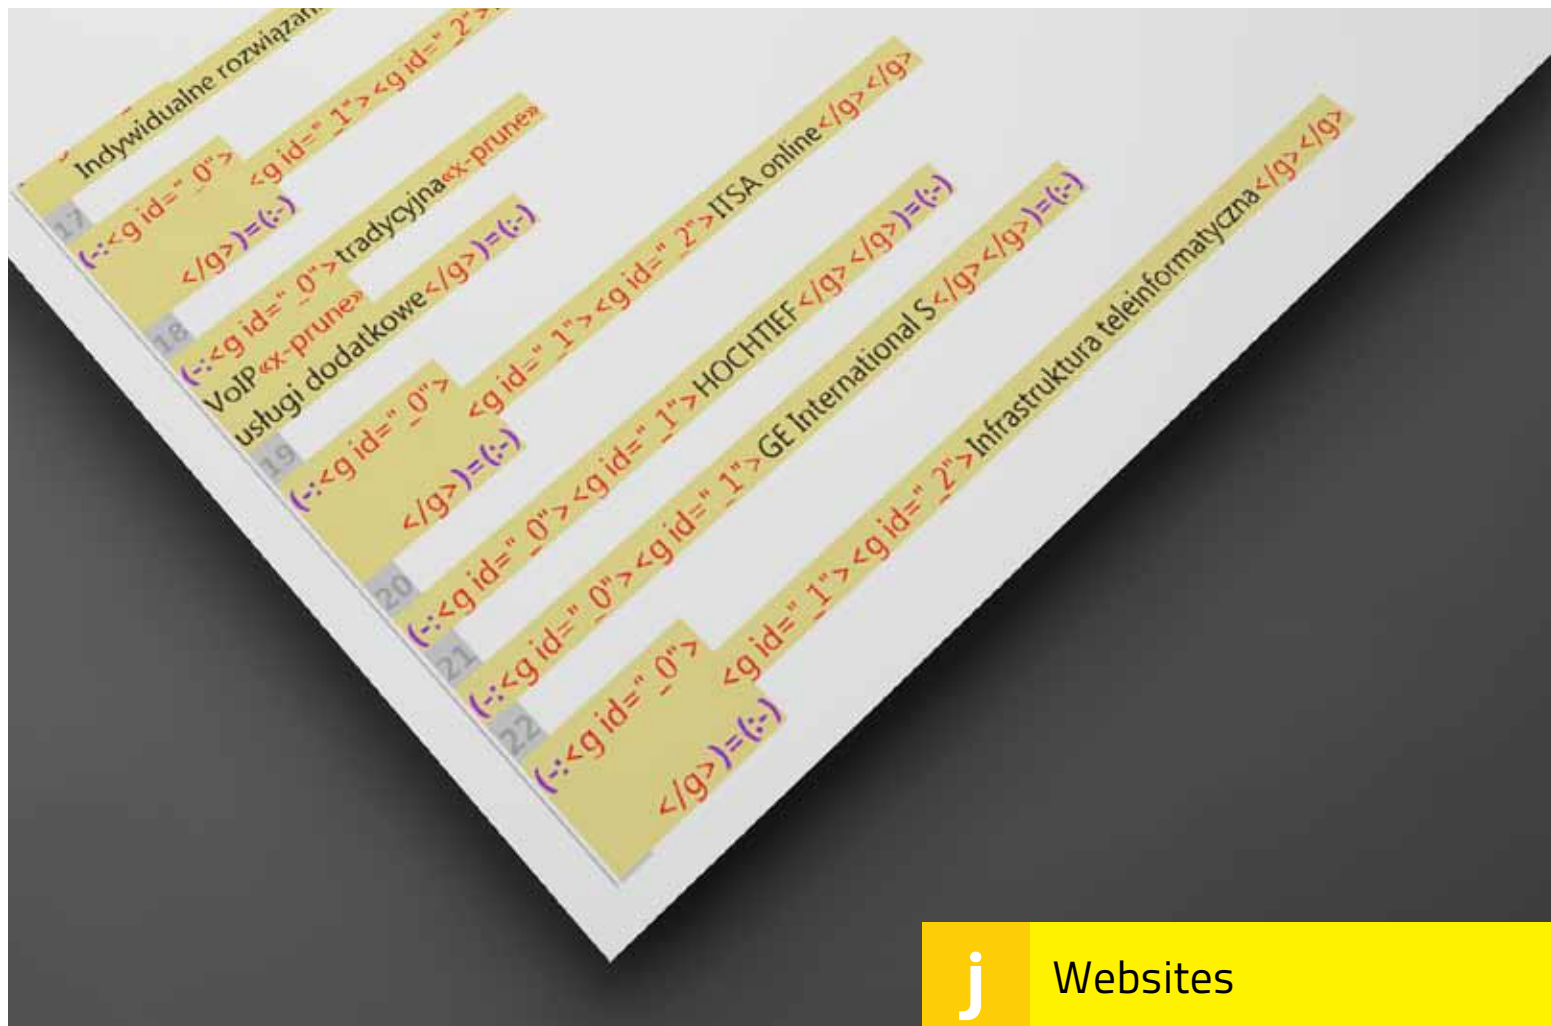

Transferring a project from one application to another, chosen by the Client, preserving photographic compliance with accuracy to one millimetre. Usually, the target file is not in a DOC/DOCX/RT format, but PDF or/

and AI. It is often ordered in a situation, when the Client has an editable, high resolution PDF file (usually prepared for printing) and requires text exchange without any modification of a form (e.g. conversion).

4

Scalability

In case of any non-standard demand,
please contact us. We guarantee an individual approach.

j Websites

20 EUR for an hour
estimated on the basis
of delivered files

We prepare websites for translations creating mirrors for local HTML with connected files. It is possible to prepare text extracts (excluding texts on the graphics!) in the form of a TransDoc two-column table or

an editable version in a DOC/DOCX/RTF format. The extract can contain a full set of texts, repeating texts or only unique ones. There is also the possibility to prepare a XLIFF file from the indicated address.

k Typesetting

From 18 EUR for an hour

We offer typesetting in all world languages (Western European, Central European, Eastern European, Cyrillic, Baltic, Eastern Central, Far Eastern – including bidirectional and right-to-left languages – as well as double byte [DBCS]/CJK languages, that is Chinese, Japanese and Korean). We possess software in the ME version, that is Middle East, which allows for typesetting of e.g. the Arabic language.

AutoCAD

From 7 EUR for an image
not flattened DWG/DXF images

We also work on files in the AutoCAD format. We prepare them in MS Word and TransDoc format, or localise it and deliver translated DXF files for further processing.

It is possible to extract all texts from DXF/DWG files to CSV (Comma Separated Values) fo further processing.

**We are looking
forward to
cooperation.**

The logo for translax features the word "translax" in a white, lowercase, sans-serif font. The letter "x" is stylized with a green-to-yellow gradient. Below the main text, the tagline "more than just translation" is written in a smaller, white, lowercase font.
