Editorial

Dear Ladies and Gentlemen,

Since the company establishment in 1993, we are aiming for quality of our products.

Our many years of experience and specialization have enabled us to develop wide product portfolio that is constantly expanding. Like every company, we encountered difficult moments on our way that we managed to overcome and get out of them enriched with new experiences. In business, I always focus on partner relations and joint pursuit of goals, which makes it easier to find solutions and gain a competitive advantage.

Several years ago we succeeded to introduce to our offer car workshop products, such as dedicated tools for replacement of hard-to-replace bushings as well as rubber car-lift pads. It is also worth to mention polyurethane products that are the alternative for standard rubber elements.

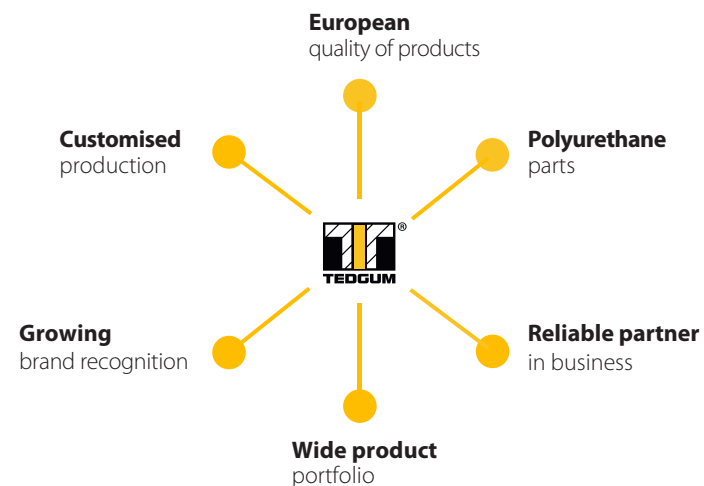

With this being said, we cordially invite you to take a closer look at our offer and we look forward to our fruitful cooperation.

**Yours sincerely,
Tadeusz Wojciechowski**

Tadeusz Wojciechowski
CEO of TEDGUM®

OUR STRENGTHS

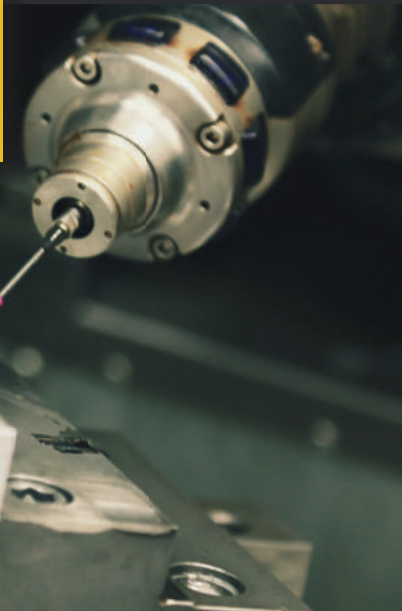

PRODUCTION AND QUALITY

For a customer **TEDGUM** means high quality product.

For us, as an organization, it is a long way starting from designing of the product and selecting the raw material, through it's machining, quality control, and delivering the final product to the customer's warehouse.

Many years of experience and a passion to create is present in every stage of our production.

TEDGUM®

MANUFACTURER OF METAL-RUBBER AND POLYURETHANE ELEMENTS

BUSHINGS FOR CAR SUSPENSION

Metal-rubber bushings are the main product line in our portfolio.

With more than 2 800 of products in this category we are able to cover almost 1 400 car models. We also offer the widest anti-roll bar bushings range of products in the market.

Exemplary products:

TED49611

HYUNDAI Accent
KIA Rio

00724672

AUDI A3
SEAT Altea, Leon
SKODA Octavia,
VW Golf, Jetta, Passat, Touran

TED51614

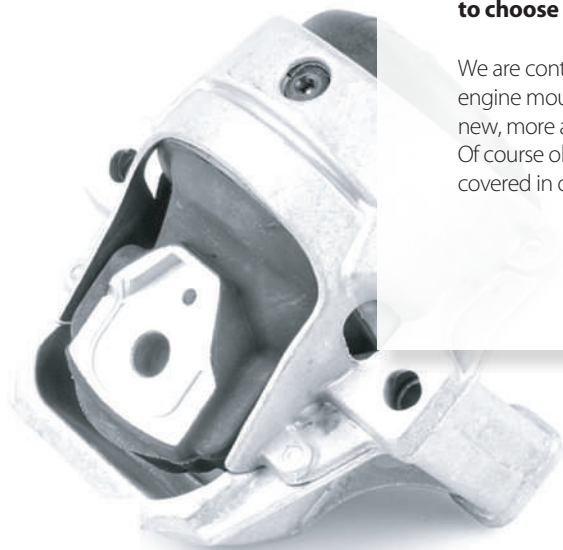

MERCEDES Viano, Vito

more at: www.katalog.tedgum.pl

ENGINE MOUNTS

More than 1 000 different engine mounts to choose from.

We are continuously extending our portfolio of engine mounts. We are constantly introducing new, more and more sophisticated solutions. Of course older car models are also well covered in our product range.

Exemplary products:

00443494

MITSUBISHI L200, Montero, Pajero, Pajero SPORT

00581411

RENAULT Megane, Scenic

01160778

LAND ROVER Freelander

more at: www.katalog.tedgum.pl

STRUT MOUNTS

Every strut mount we produce is tested both for the housing and bearing quality.

These two factors are crucial for offering a highquality product. We offer all-in-one solutions as well as separate parts of strut mounts.

Exemplary products:

00226381

FORD C-max, Focus, Kuga
MAZDA 3, 5
VOLVO S40

00215049

ABARTH 500 / S95
FIAT 500, Idea, Panda, Punto, Ka
LANCIA Musa, Ypsilon

00446359

MITSUBISHI L200, Pajero

BUSHING AND ENGINE MOUNT INSERTS

It is very often that the metal housing of the element is in perfect condition and only the rubber part needs to be replaced.

To avoid waste and lower the repair cost it is worth to consider replacing only the worn element and to reuse the housing.

Pros of bushing and engine mount inserts:

- lowering the replacement cost by around 50%
- ease of installation
- pro environmental solution thanks to using old housing
- Perfect solution for old-timers and to implement short series of products.

Exemplary products:

00727863

FORD Galaxy
VOLKSWAGEN Sharan

00726032

AUDI A6
SKODA Superb
VOLKSWAGEN Passat

00581104

NISSAN Primastar
OPEL Vivaro
RENAULT Espace, Laguna, Trafic

more at: www.katalog.tedgum.pl

SETS OF BUSHINGS

TEDGUM[®] bushing sets:

- reduced repair cost,
- one-time full suspension service,
- time saving,
- high quality guaranteed,
- each set is provided in a handy box.

The sets are dedicated to the original control arms. Some sets are available with new bolts.

Exemplary products:

00227736

FORD Mondeo

TED96391

FIAT Cinquecento, Seicento

00213954

CITROEN C25
FIAT Doblo, Ducato, Fiorino
PEUGEOT J5

more at: www.katalog.tedgum.pl

DRIVESHAFT SUPPORTS & COUPLINGS

We offer a wide range of driveshaft center supports and couplings.

The main advantages of our products are:

- wide range of parts for both passenger cars and LCV's,
- high-quality bearing in each driveshaft center support,
- our own solutions when the manufacturer only provides the replacement of the whole shaft (e.g. VW Touareg).

Exemplary products:

TED16184

MERCEDES Sprinter
VOLKSWAGEN Crafter

01160783

LAND ROVER Freelander

TED45866

OPEL Movano
RENAULT Master

CAR LIFT PADS

Every car workshop needs to be equipped in a car lift.

A very important element of the lift is the rubber pad that have the only contact with the car. Damaged pad can cause a damage for the car and in extreme situations car can fall down from the lift. Such accidents are often not covered by the insurance policy.

Exemplary products:

00844042

00844251

00844201

more at: www.katalog.tedgum.pl

FUEL HOSES

Fuel hoses are very important parts of the car.

Our hoses contains 3 layers. Outer one made of CR rubber is resistant to weather condition to avoid fast ageing, inner part is resistant to fuel and oil and inner textile part reinforces the hose to avoid breaking when inner pressure is given.

Exemplary products:

00813184

FLEXIBLE FUEL HOSE ID=3,2MM;
OD=7MM; 1 M

00814522

FLEXIBLE FUEL HOSE; ID=4MM;
OD=11MM; 1 M

00816681

FLEXIBLE FUEL HOSE; ID=8MM;
OD=14MM; 1 RM

more at: www.katalog.tedgum.pl

POLYURETHANE ELEMENTS

Where the rubber element is not strong enough, the polyurethane can be a perfect solution.

This super durable material especially finds its place in off-road, race or drift cars. It is also a good solution for passenger cars and LCV's. Our production technology allows producing elements with different colours and hardness. We offer single elements as well as complete sets.

Exemplary products:

TED53159

SUBARU Forester, Impreza, Legacy

TED24081

TOYOTA 4-Runner, Land Cruiser

TED61149

VOLKSWAGEN Golf

more at: www.katalog.tedgum.pl

BUMP STOPS

We produce bump stops in wide range of shapes, sizes and material.

Our range of products cover passenger and commercial vehicles.

Exemplary products:

00392000

MAZDA 6

00132469

CHRYSLER Town & Country, Voyager
DODGE Caravan
PLYMOUTH Voyager

00289255

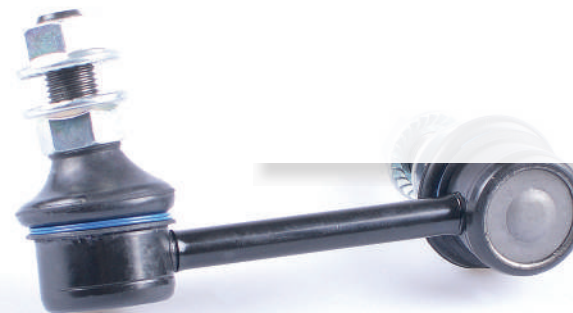

HYUNDAI i-30
KIA Ceed, Pro Ceed

more at: www.katalog.tedgum.pl

ANTI-ROLL BAR LINK

The anti-roll bar links are one of the most often damaged element in a car.

In response to market needs we are constantly enlarging our range of those products. We offer anti-roll bar links even for the newest cars on the market.

Exemplary products:

00580089

DACIA Dokker, Loggy, Logan, Sandero,
RENAULT Clio, Kangoo, Logan, Megane,
Scenic, Thalia, Twizy

00226225

FORD Focus

TED11381

AUDI, SEAT, SKODA, VOLKSWAGEN

more at: www.katalog.tedgum.pl

BUSHING PULLERS

Sometimes replacement of the bushing can be difficult without appropriate tool.

Using manual pullers can solve the problem and give advantage of saving time, lowers needed workforce. It is one of the must-have equipment of every car workshop.

Exemplary products:

TED42843

AUDI A2, A3, VW Polo, Caddy, Eos, Fox, Golf, Jetta, Passat, Touran, SEAT Cordoba, Ibiza, Altea, Leon, Toledo, SKODA Fabia, Roomster, Octavia

TED87395

FORD Mondeo MK4, Focus MK1, MK2, Kuga, Galaxy S-max, C-max, MAZDA 3, VOLVO XC70 II, V70 III, XC60, S60 II, S80 II, V60, C30, S40 II, V50.

TED99545

BMW SERIA 1(e81, e82, e87, e88)
BMW SERIA 3 (e36, e46, e90, e91, e92, e93)
BMW X1(e84), X3 (e83), Z1, Z4
OPEL VECTRA (1995->2003), SAAB 9-5 (1997->)

more at: www.katalog.tedgum.pl

ONLY AVAILABLE IN TEDGUM

Continuously we are looking for solutions to provide products that would make car repair easier and less expensive.

We are providing elements that are beyond the OE solutions and not offered by other producers.

Exemplary products:

TED11549

MERCEDES CLASS-C

00748698

MERCEDES CLASS-ML
TOYOTA Avensis
VOLVO S60, S80, V70, XC70

00215167

ALFA ROMEO 147, 156
FIAT Marea, Multipla
LANCIA Lybra

CATALOGUE

Based on our experience we have developed our own online products catalogue as the answer to the customer needs.

Our tool allows searching and choosing the correct parts free of charge and is widely used not only by car mechanics but also by many of our distributors. Detailed suspension diagrams help them at everyday work. It is also very useful when the detailed search is needed or the element is untypical or in many variations depending on the version of car model.
