

DOMAX IS ONE OF THE BIGGEST PRODUCERS OF WOOD CONNECTORS AND HARDENED SCREWS IN EUROPE

Founded in 1994 as a family-run company, Domax began with a strong focus on manufacturing and distributing wood connectors in Poland. Over the years, our commitment to high-quality products, an extensive range of offerings, and the expertise of our dedicated professionals transformed us from a small family business into a market leader across Central and Eastern Europe.

Within just a few years, Domax established itself as a trusted nationwide

manufacturer and supplier, building long-term partnerships with hundreds of customers. Today, after more than two decades in the industry, we take pride in sustaining and expanding our business, **with over 85% of our long-standing clients continuing to trust us.** As we strengthen our presence in Europe and beyond, we remain committed to innovation, reliability, and the values that have defined us from the very beginning.
