POWER SPEECH

CLOSE-UP

Casual, yet one of the truest expressions of sharing magic. During a party, banquet, or event, Y goes from table to table, from one group of people to another, and standing right next to them shows them inexplicable things. Viewers have a chance not only to observe inexplicable phenomena up close, but they can also interact with the magician. This makes each show unique! The planned improvisation leads to Y talking directly to the viewers using magic. This type of intelligent entertainment is especially appreciated by influential people.

To make sure that each guest experiences the magic before the table show begins, Y performs a short etude on stage, through which he introduces himself to the audience and leaves a magical impression on them. Finally, he encourages the audience to interact with him after the show. Thanks to this, all those seeking more thrills have a chance to experience the illusion not only from the perspective of the audience watching the performance but also from the closest distance.

A strong advantage of this type of performance is the ability to entertain special guests directly.

No other event attraction offers such a personal approach!

CORPORATE SHOW

A 30-minute personalized stage performance. A show that keeps viewers in intellectual tension until the great finale. During Y's show, the client's logo and company name appear in the background. After the show, Y appears briefly among the guests with close-up magic.

THEATER SHOW

A one-hour emotional magic show. It is a typical theater show that requires a special arrangement of chairs and building a theatrical atmosphere. We can organize a show in one of our friendly Warsaw theaters.

POWER SPEECH

With over 10 years of experience in working with corporations and media presence, Y has developed a unique set of skills and knowledge. He shares these in his power speeches. Have you ever wondered how magicians work? How are new magic effects created? These and other secrets will be revealed during his speeches. <https://powerspeech.pl/mowca/iluzjonista-y/>
