

Commercial offer for rent with an optional purchase

High-pressure cabin parts washer starting from 250 EUR net per month

MASTER CLEANER MC 1500™

A workshop cabin washer made of stainless steel, designed for applications in both industry and the automotive sector. It is intended for cleaning heavy contaminants without damaging the surface of the cleaned parts. The machine operates in a closed-loop system at temperatures up to 50°C. The standard equipment includes a high-pressure lance with a pressure of up to 140 bar.

The tank has a capacity of up to 140 liters and can optionally be thermally insulated to prevent the heated fluid from cooling down too quickly. The washer lid is pneumatically lifted, and the adjustable feet ensure user comfort during operation.

External dimensions – Closed chamber (width x depth x height)	175 x 80 x 170 cm
Internal dimensions of the chamber (width x depth x height)	145 x 65 x 65 cm
Heated liquid tank	up to 140 liters
Operating temperature	up to 50°C
Power supply	3 x 400V
Pneumatics power supply	6–8 bar
Maximum power	7,5 kW
Pump operating pressure	140 bar
Dual liquid filtration system	yes
High pressure lance performance	up to 15 L/min
Air connection	pneumatic quick connector DN 7.2 plug
Cost of hand washing with an overflow brush	up to 5 L/min
Double foot switch	yes
Security	temperature sensor emergency safety switch limit switch
Security level	IP 54
Declaration of Conformity	CE

DEDICATED DE-OILER

The Master Cleaner MC 1500™ is equipped with a dedicated de-oiler to effectively separate oil contaminants from the water in the washer's tank.

Equipment:

- Liquid level and temperature sensors,
- Dual liquid filtration system,
- Heated tank up to 140 litres,
- Compressed air gun up to 8 bar,
- High pressure nozzle up to 140 bar,
- Low pressure brush up to 5 L/min,
- LED lighting,
- Pneumatic chamber opening mechanism,
- Movable feet with height adjustment up to 100 mm,
- Double foot switch,
- Unit made entirely of stainless steel,
- Air blowing over the sight glass,
- De-oiler,
- XTON Active Cleaner 5 L.
- Comfort Pack

Additional options:

You can also include the following items with your order:

- Rotary basket,
- Spray arm,
- Rotating nozzle,
- Collector cleaning nozzle,
- Insulated tank.

ACTIVE CLEANER

4-component, alkaline, active cleaning and degreasing agent, perfectly capable of removing grease, oil and carbon deposits from steel, iron and aluminium surfaces. It works best in pressure washers with closed working fluid circuit. The fluid has a corrosion inhibitor.
