

Commercial offer for rent with an optional purchase

Automatic Basket Washer starting from 200 EUR net per month

SMART CLEANER SC 1000™

The automatic basket washer, constructed from stainless steel, is designed for industrial and automotive applications. It is used for automatic cleaning of heavy dirt without damaging the surface of the cleaned element. It works in a closed loop at temperatures up to 80°C. The tank, with a capacity of up to 300 liters, can optionally be thermally insulated to prevent rapid cooling of the heated fluid. The diameter of the rotary basket washer is 100 cm.

External Dimensions – Open Chamber (width x depth x height)	150 x 120 x 250 cm
External Dimensions – Closed Chamber (width x depth x height)	150 x 120 x 140 cm
Rotary Basket Diameter	100 cm
Working Height	80 cm
Rotary Basket Capacity	300 kg
Work Time Programming Range	0 – 99 min
Washing / Fluid Temperature	80°C (optionally 90°C)
Heater Power	9 kW
Tank Capacity	up to 300 L / 200 L to oil separator level
Pump Capacity	250 L/min
Spray Pressure	4.5 – 6 Bar
Power Supply	3 x 400 V
Safety Features	temperature sensor, emergency safety switch, limit switch
Safety Level	IP 54
Declaration of Conformity	CE

DEDICATED OIL SEPARATOR

The Smart Cleaner SC 1000[™] device is equipped with a dedicated oil separator that allows effective separation of oil contamination from the water in the washer tank.

Equipment:

- Fluid level and temperature sensors,
- Dual fluid filtration system,
- Heated tank up to 300 liters,
- Device made entirely of stainless steel,
- Oil separator,
- XPOWER Active Cleaner BA 5 L,
- XTON Comfrot Pack.

ACTIVE CLEANER

4-component, alkaline, active washing and degreasing agent, excellent for removing dirt from grease, oil, and carbon deposits from steel, iron, and aluminum surfaces. It works best in high-pressure washers with a closed fluid circulation system. The liquid contains a corrosion inhibitor.

Consumables are available at XTON24.PL
